PROFESSIONAL SUMMARY

ECBA- and CAPM-certified business professional with experience in business analysis, application support, process improvement, UAT, reporting, and end-user support. Skilled in gathering requirements, analyzing processes, troubleshooting enterprise applications, and translating business needs into practical solutions. Experience with Microsoft 365, SharePoint, Power BI, Excel, SAP, Salesforce, and mainframe systems.

CORE SKILLS

Requirements Gathering | Process Analysis & Improvement | UAT & Test Cases | Application Support & Troubleshooting | Stakeholder Engagement | SDLC & Project Delivery | Microsoft 365 | SharePoint | Power BI | Excel & Power Query | SAP | Salesforce | Mainframe Systems | Jira/Confluence | Visio

PROFESSIONAL EXPERIENCE

Customer Relations Specialist - Group Benefits | Canada Life, Winnipeg, MB

Sep 2025 - Present

- Investigate and resolve member and provider issues by reviewing claim, eligibility, payment, and historical data across BEN mainframe, SAP, Salesforce, GPAS, MyCLaw, and SharePoint.
- Identify missing or incorrect information, document findings, and coordinate with Claim Examiners and internal teams to resolve complex requests and prevent avoidable follow-ups.
- Identify recurring service gaps and recommend practical workflow improvements, including stronger follow-up controls for outstanding requests.

Business Data Analyst - Volunteer | PMI Manitoba, Winnipeg, MB

May 2025 - Present

- Gather requirements from committee leads and stakeholders, clarify acceptance criteria, and support reporting, web, registration, and event initiatives.
- Develop recurring KPI reports and dashboards using Excel, Power Query, Power BI, and ThoughtSpot data to track membership, certifications, participation, and year-over-year trends for leadership.
- Clean, validate, merge, and reconcile data from multiple sources; use UAT to confirm forms, reports, and website changes meet business requirements.

Digital Banking Advisor | Royal Bank of Canada, Winnipeg, MB

Feb 2024 - Dec 2024

- Supported clients using digital banking applications, investigated access and transaction issues, documented cases, and escalated fraud or system concerns when required.

Technical Support Advisor | IntouchCX, Winnipeg, MB

Mar 2023 - Feb 2024

- Provided front-line application, software, and hardware support by troubleshooting user issues, documenting solutions, and escalating complex cases when needed.

Business Analyst Intern | Loblaw Companies Limited, Winnipeg, MB

May 2021 - Aug 2021

- Supported a national ERP/POS training-readiness initiative by tracking role-based completion, UAT activities, and rollout issues across store groups using Excel and Power BI.
- Analyzed readiness data to identify gaps, created status reporting for stakeholders, and supported follow-up actions that helped achieve 98% training compliance before launch.
- Worked with business and project stakeholders to clarify process issues, capture feedback, and improve training materials and implementation readiness.
